

## **Info about The Horizons Fellowship**

**The Horizons Fellowship** supports 150 outstanding university students in their pursuit to become leaders in technology. Our tuition-free programs provide immersive software engineering and web/mobile development courses geared towards high-achieving college students. Students need not have a computer science background! Our curriculum, developed by ex-Salesforce and Optimizely engineers alongside PhD candidates in computer science, is designed to teach students how to build web, mobile, and desktop applications.

Horizons students have gone on to receive offers from firms such as **Google, Slack, Yelp, Amazon, BCG, Visa, J.P. Morgan, and more**

Past Horizonites have come from a variety of schools and backgrounds. Students have hailed from Harvard, Princeton, Yale, UPenn/Wharton, Columbia, Northwestern, Brown, Michigan and more. We've welcomed National Math Olympiad winners, USA Computing Olympiad participants, renowned college entrepreneurs, students with perfect SAT/ACT scores, talented designers, photographers, and more as part of our previous cohort.

### **Application Process/Criteria**

- Currently enrolled in (or recently graduated) an undergrad or graduate university program
- Submission of resume and standardized test scores on [www.joinhorizons.com](http://www.joinhorizons.com)
